The solar eclipse was square Anthony Weiner's Sun. His Sun is conjunct Uranus and Pluto. The N.Y. Congressman resigned after his inappropriate texts to young girls became public. Squares from eclipses are powerful when they orb is small as this one was. Three degrees is about the maximum.

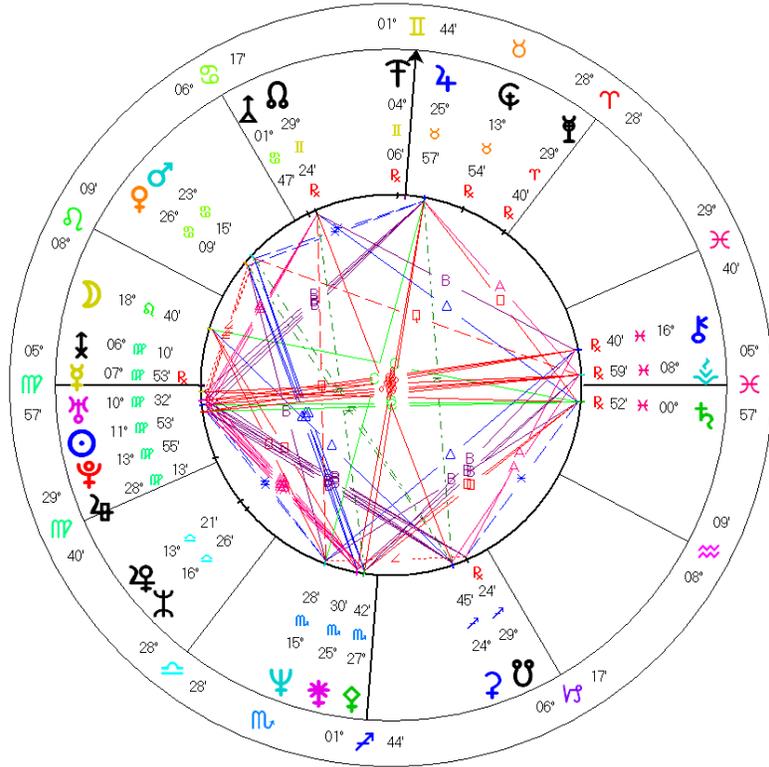

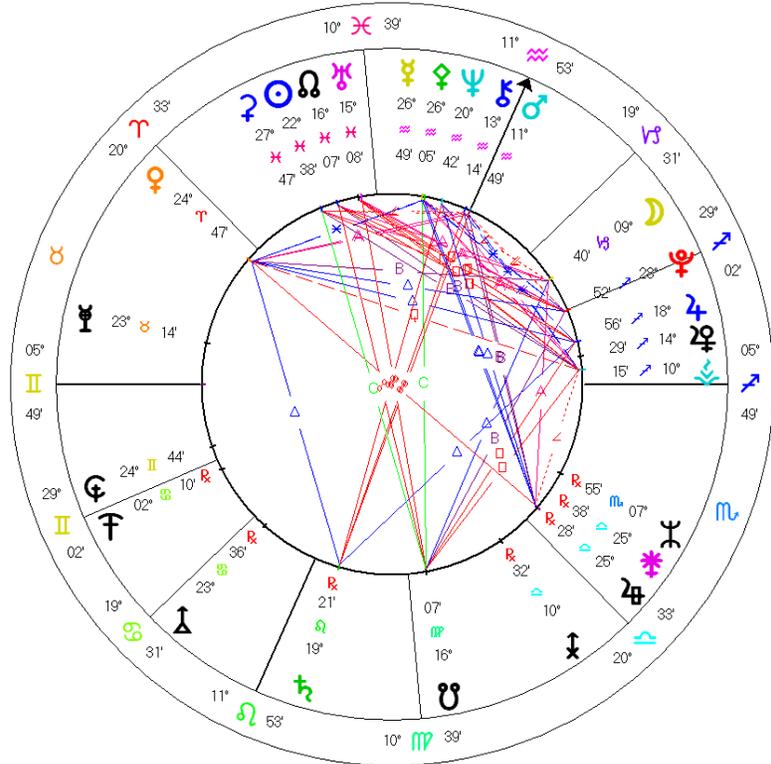

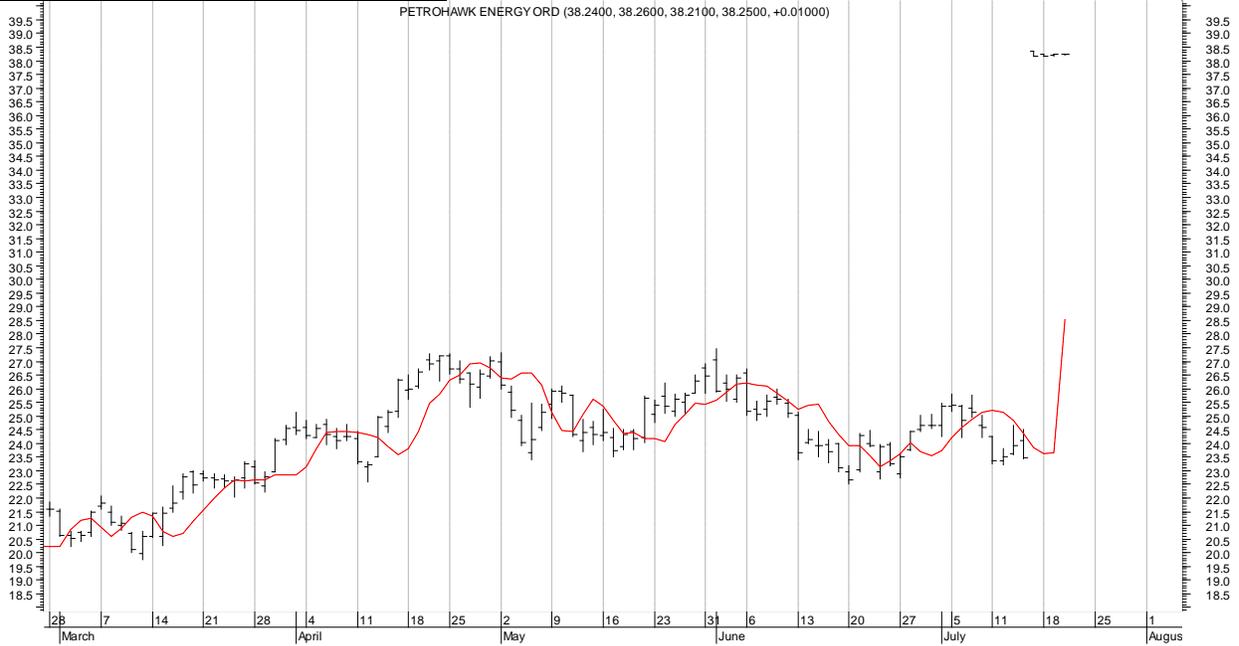

Chart 4-Petrohawk First Trade Horoscope

On July 15th, HK was bought by another energy company. I think that the key here was the June 15th lunar eclipse at 24 Sagittarius. This was on the natal Jupiter-Pluto midpoint and was square the Sun. On a 90-degree dial, this is stated as the Sun = Jupiter/Pluto. On the day of the takeover announcement one month after the eclipse, there was a transiting Moon-Node conjunction on the lunar eclipse degree. This triggered the eclipse point. The key here is to note that the Node and the Moon were the triggers for the event.

## **Eclipse Notes 2:**

1. The new government of Iraq was sworn in on the day of the lunar eclipse. This is an indication of continuing instability.
2. The solar eclipse of January 15<sup>th</sup>, 2011 at 13 Cap ended the jobs of 2 individuals by falling on their natal Mars. Robert Gibbs (March 29, 1971) resigned as Obama's spokesman (Mars at 10 Capricorn square Uranus). The eclipse was also on the 12 Cap Mars of football star Brett Favre (October 10, 1969). He retired from pro ball.
3. Val Kilmer was born on December 31, 1959. His Sun-Saturn conjunction at 9 Capricorn was 4 degrees from the 13 Cap eclipse. He was forced to sell a large property due to taxes and excessive debt.
